Yacht introduction

M/Y Yes

M/Y YES is a stunning model from the incredibly successful and popular Cantiere delle Marche shipyard. This NAUTA AIR 90 is an all aluminium explorer yacht featuring elegant and airy design, huge interior spaces, long range and low fuel consumption levels allowing her owners to sail far and wide with maximum comfort. Inside, her exceeding interior has been designed by Francesco Guida.

M/Y YES was the first yacht in the Cantiere delle Marche Nauta Air line, whose Explorer Yacht characteristics offer the perfect blend of superyacht style with the sturdy substance that characterises CdM's Explorer Yachts.

Interior and exterior spaces are kept in direct visual contact thanks to use of transparent glass in both windows and doors. The galley on the main deck was designed to be accessible both from indoors and out, and the central main salon is divided into conversation, relaxation and dining areas. The yacht also benefits from a huge 60 sq.m panoramic fly bridge, with a sun area, BBQ, bar, 2 dining areas and spacious al fresco lounge, specifically designed for easy outdoor living. A dedicated stairway leads from the main deck to the owner's suite for total privacy. A separate entrance leads to the lower deck and guest cabins. All guest area feels airy and spacious thank to the 2.1 m (6,8 ft) headroom.
