

Stellamar
RJ115

M/Y Stellamar

Stellamar is a remarkable 35-metre tri-deck explorer yacht built by Cantiere delle Marche for an Owner with an uncompromising vision: to combine the robust, ocean-going spirit of a true expedition vessel with the refined elegance and comfort of a world-class superyacht. Developed on the proven RJ 115 platform, Stellamar embodies the yard's philosophy of engineering excellence, long-range autonomy, and timeless Italian design.

Her sleek yet purposeful profile is the result of a harmonious collaboration between Hydro Tec and Francesco Paszkowski Design, featuring a steel hull, aluminium superstructure, and a series of custom refinements that enhance both aesthetics and functionality. Expansive decks, wide walkways, and panoramic glazing create a seamless connection between life on board and the surrounding seascape, while her carefully balanced proportions lend her a poised, elegant silhouette that conceals exceptional capability.

Powered by twin Caterpillar C18 Acert engines delivering 533 kW each, Stellamar reaches a top speed of 13.5 knots and offers an impressive transoceanic range of 5,500 nautical miles at cruising speed. Her technical prowess is supported by CMC zero-speed stabilizers, and a fully integrated Furuno navigation suite, and the innovative hidden crane system ensuring absolute comfort and control in all conditions.

The interior layout has been conceived for both private relaxation and sophisticated entertaining. Accommodating up to 12 guests in five luxurious cabins, including a full-beam master suite on the main deck, Stellamar offers a refined living environment, with interiors by Francesco Paszkowski blending contemporary Italian elegance with warm, inviting tones. Expansive salons, a dedicated sky lounge, and generous al fresco dining areas create versatile social spaces, while the sundeck, crowned by a Jacuzzi, invites total relaxation.

Her beach club at the stern offers direct access to the sea and serves as a hub for water sports, supported by a carefully curated selection of tenders and toys. Crew accommodation for seven ensures discreet, professional service at all times.

Winner of the World Superyacht Award 2024, Stellamar stands as one of the most accomplished explorer yachts in her class, capable of navigating the most remote waters without compromising on luxury. She is the embodiment of Cantiere delle Marche's core values: strength, range, elegance, and a deep respect for the sea.
