M/Y Paziienza

YACHT INTRODUCTION

M/Y Paziienza

Paziienza is a 35-metre tri-deck explorer yacht built by Cantiere delle Marche, the third hull in the RJ 115 series and the second of the model. Commissioned by an Australian Owner with extensive cruising experience, she was conceived to handle long passages in unforgiving conditions while delivering the comfort and finish of a luxury superyacht. She is built on the proven RJ 115 platform, with a steel hull, aluminium superstructure, and a wide range of custom modifications that set her apart from her sister ship.

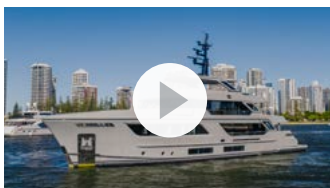

Her exterior is the work of Francesco Paszkowski Design, with naval architecture by Hydro Tec. The bespoke hard top, the openable VIP window on the upper deck, and the 0.5-metre sky lounge extension are among the most visible departures from the standard RJ 115. The characteristic hidden upper deck overhang crane and the dedicated stern tender garage accessed through a side hatch, allow Paziienza to carry two tenders and a full complement of water toys without compromising the clean lines of the profile.

Twin Caterpillar C18 ACERT engines deliver 533 kW each, for a top speed of 13.4 knots and a range of 5,500 nautical miles at 10 knots - figures confirmed at sea trial and since validated by real-world cruising in conditions up to sea state 6. Two upgraded 80 kW Kohler generators, CMC Stabilis Electra zerospeed stabilisers, a 52 kW bow thruster paired with a 30 kW stern thruster, and a Furuno navigation suite with full ECDIS and integrated dashboard make her exceptionally manageable in tight harbours and confident offshore.

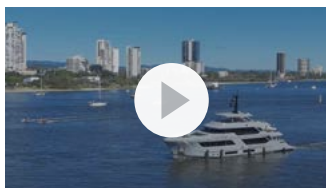

Francesco Paszkowski and Margherita Casprini gave the interiors a compelling personality by skillfully harmonizing a diverse palette of light and dark tones in veneers, panelling, marbles, stones, and upholstery. In addition to elegantly crafted bespoke furniture, Paziienza's interiors have been further enriched through the incorporation of a series of exquisite loose furniture pieces from distinguished manufacturers, such as the Maxalto and Flexform sofas and armchairs.

The open transom leads down to a teak swimming platform that doubles as a beach club. Crew accommodation for five across three cabins with the Captain's quarters relocated to the lower deck (or 7 across four cabins thanks to the convertible VIP cabin on Upper Deck) ensures the service runs without intruding on the guest areas. Winner of the World Superyacht Award 2025 in the Displacement Motor Yachts 30–34.9m category, Paziienza is a working embodiment of what Cantiere delle Marche builds for: range, strength, and a refusal to choose between expedition capability and proper luxury.
